JULY 21 - 25 th

"Finding Solutions of life through yoga"

In today's world, yoga stands at everyone's doorstep whether he is from the north, the south, the east or the west. Many speak only of yoga's benefits for the physical body, for relaxation of the mind or for the overall wellness one experiences upon practicing yoga. However, little in the western world is taught on Yoga as a system of evolution of the human personality. Our traditional system of yoga helps to awaken the potential qualities of the human being. Thanks to these practices we are able to become the observer of our own behavior in order to grow spiritually and to enhance the qualities of a balanced mind and body. Our awareness is increased in regards to our actions upon ourselves, others and the earth where we live.

Swami Niranjanda teaches us these traditional yoga practices now simply known as "Head, Heart and Hands". The balance between these three is the key to opening up one's potential in order to find solutions for life. Swami Niranjanda translates the ancient science of yoga for application to the world today. Join us for an unforgettable program, led by an exceptional modern yoga master.
